LinkedIn: linkedin.com/in/luis-anthonie-alkins

## PROFESSIONAL SUMMARY

Technical Architect and Technical Lead at Samsung R&D Institute Indonesia, overseeing architecture across four teams while leading engineering delivery. Experienced in multi-cloud infrastructure systems, software architecture, and performance optimization, with Samsung S/W Expert and Associate Architect certifications.

## CERTIFICATIONS & RECOGNITION

- **Samsung Associate Architect Certification | June 2026** - Three-month theoretical architecture assessment reviewed by certified architects in Korea. First recipient at SRIN.
- **Samsung S/W Expert Certification | July 2025** - Four-hour heuristic optimization challenge; one of fewer than five passing among 1,000+ participants. Third recipient at SRIN.
- **High Performer Award | SRIN | 2026** - Awarded to approximately 10 employees annually for consistently strong performance.

## PROFESSIONAL EXPERIENCE

### Samsung R&D Institute Indonesia (SRIN) | Jakarta, Indonesia

**Technical Architect | May 2025 - Present**

*Concurrent with Technical Lead; reporting to the CEO.*

- Supervised architecture across four teams as the primary contact for HQ architects, applying HQ standards for performance, memory optimization, and code quality using design patterns and SOLID principles.
- Established AI-assisted engineering workflows using orchestrated, role-specific agents for roadmap execution, task tracking, and reporting, supported by shared project knowledge and architecture decision records (ADRs).
- Developed training materials for SRIN employees covering SOLID principles, design patterns, database design, and system design.
- Built and introduced a Stack UI framework in one Tizen UI project to simplify page navigation, focus restoration, and cleanup.

**Technical Lead | May 2024 - Present**

*Reporting to the Engineering Manager.*

- Initiated AI-assisted re-architecture using Clean Architecture; reduced RAM usage from 72 MB to 42 MB when visible and 21 MB when hidden through on-demand UI creation.
- Led and mentored a 4-person engineering team, coordinating delivery with product management, CX, and UX teams in Korea and QA teams in India.
- Initiated and led a 15-person task force to address 2,000 TV commercialization defects spanning application performance, interoperability, and discrepancies between specifications and implementation.
- Represented SRIN on three month-long business trips to support TV commercialization.

## PROFESSIONAL EXPERIENCE - CONTINUED

### Samsung R&D Institute Indonesia (SRIN) | Jakarta, Indonesia

**Software Engineer | May 2023 - May 2024**

- Re-architected a Tizen TV client application using MVVM, achieving a Software Architecture Maturity (SAM) score of 5/5.
- Reduced image asset storage from 78 MB to 9 MB (88%) by replacing pre-rendered image combinations with reusable background and foreground layers.

**Software Certification Mentor | May 2023 - March 2024**

- Designed and delivered an algorithms and data structures curriculum to prepare SRIN engineers for the S/W Pro Certification.
- Increased the proportion of SRIN engineers holding the S/W Pro Certification from 28% to 78% within six months through mentoring.

### Tokopedia | Jakarta, Indonesia

**System Engineer | February 2022 - May 2023**

- Developed Agora, a system for managing multi-cloud infrastructure, including NSQ, Redis, PostgreSQL, and S3.
- Built a production simulation environment for large-scale automated load testing.
- Managed cloud resources across AWS, GCP, and Alibaba Cloud.

## TECHNICAL SKILLS

- **Languages:** C#, C++, Kotlin, Go.
- **Frameworks & Architecture:** .NET, Clean Architecture, MVVM, design patterns, SOLID, separation of concerns.
- **Cloud & Infrastructure:** AWS, GCP, Alibaba Cloud.
- **Databases:** PostgreSQL, MySQL, MongoDB.
- **Platforms:** Tizen, Android.
- **AI-Assisted Engineering:** Multi-agent orchestration, LLM workflow automation, project knowledge management.

## SPOKEN LANGUAGES

English, Indonesian.

## EDUCATION

### BINUS University | Jakarta, Indonesia

**Bachelor of Science in Mobile Application and Development | December 2022**

- GPA: 3.94/4.00; Summa Cum Laude, Best Graduate.

## COMPETITIVE PROGRAMMING ACHIEVEMENTS

ICPC World Finalist (46th ICPC) | Google Code Jam Round 3: Top 200 | Codeforces: Master.
